<u>The amount you will receive</u>: Cost you entered above minus discount you set for the group. (eg. If you enter \$30 for bi-weekly lawn mowing for upto 5000 sq ft lot, the amount you will receive is: \$30-(5% discount=\$1.5)=\$28.5.

Remember, this is just an example, your actual amount will vary based on the cost number you enter above and the discount tier you set.

<u>g.</u> <u>Discount</u>: Click on "Add" to add the Discount tiers that you will provide for customers in groups. See the example below. This is just a suggested example; you should add according to your

After the Service is purchased by a Home Owner

Once the home owner purchases the service, you will receive an email that a home owner has purchased the service. You will then need to login to your account to find the details about what service was purchased, by whom and for what frequency.

You need to go to your dashboard and go to "Booking List" on the left. You will see all the "In Process" and "Past" services. In process services are the ones you need to perform. You can contact the homeowner to schedule the service.

Once you perform the service, come back to this dashboard, click on the user where you performed the service and click on "Mark Complete". The homeowner will receive an email that the service was marked complete. If they are satisfied with the service, the service will be marked complete after 2 days and go to "Past" tab in "Booking List". You will also receive the payment after that. If the homeowner, however, was not satisfied, they may contact you or reject the service. If that happens, the service will come back to "In Process" tab. Please contact them to understand the reason and once resolved, please mark it complete again.
